

EXEMPTIONS OR EXCLUSIONS FROM THE 6% ARKANSAS GROSS RECEIPTS TAX AND COMPENSATING USE TAX

Department of Finance and Administration
Economic Analysis and Tax Research
(501) 682-1688

This document is to be used only for classification and estimates of various exemptions or exclusions to the Arkansas Gross Receipts tax and the Arkansas Compensating Use tax. Always refer to the regulations published by DF&A for definitive guidance.

Tax expenditures are features of the tax law that by exclusion, exemption, deduction, allowance, credit, deferral, preferential tax rate, or other statutory device reduce the amount of the taxpayer's liability to the State by providing either economic incentives or tax relief to particular classes of persons or entities to achieve a public purpose. This report deals only with tax exemptions relating to the gross receipts tax or the compensating use tax.

The estimates below should only be used as a guide to the gross receipts tax exemptions allowed under Arkansas law and not as an official revenue estimate of any particular tax proposal. All estimates in this document are for fiscal year 2008.

In principle, sales taxes are designed to be levies on consumer expenditures. Sales taxes have been established in such a way as to **exclude** sales for direct resale, and sales of materials that become physical ingredients of goods produced for sale by the purchasers. Estimates of such exclusions are not addressed in this document.
